PROFESSIONAL SUMMARY

Java Full Stack Developer and final-year Computer Engineering student with practical experience from two software development internships, building web applications using Java, Spring Boot, React.js, Spring Security, Hibernate, and PostgreSQL/MySQL. Skilled in developing RESTful APIs, implementing secure authentication and authorization, and integrating AI-powered features using Spring AI and Retrieval-Augmented Generation (RAG). Strong foundation in Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), and software engineering best practices.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frontend Development: React.js, HTML5, CSS3, Responsive Web Design, Tailwind CSS, Bootstrap

Backend Development: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful APIs, JWT Authentication, JSP, Servlets, JDBC

Database & Persistence: PostgreSQL, MySQL, Database Design, Query Optimization

AI / LLM Integration: Spring AI, LLM Integration, Retrieval-Augmented Generation (RAG), Vector Databases, Embeddings

Core CS Fundamentals: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Collections Framework, Exception Handling, MVC Architecture, System Design Basics

Tools & Practices: Git, GitHub, Maven, Postman, Agile/Scrum, SDLC, VS Code, Eclipse

PROFESSIONAL EXPERIENCE

Software Developer Intern

Dec 2025 – Feb 2026

Manasvi Tech Solutions Pvt. Ltd., Nashik

On-site

- Built full-stack application modules end-to-end using Java, **Spring Boot**, and **React.js** with Tailwind CSS/Bootstrap, translating functional requirements into working features across the stack.
- Secured REST APIs with Spring Security authentication and role-based access control, optimized Spring Data JPA queries to streamline CRUD operations, and collaborated in Agile sprints using Git, GitHub, Maven, and Postman.
- Integrated **Spring AI** capabilities, including LLM-based responses, Retrieval-Augmented Generation (RAG), and vector embeddings, to power context-aware application features.

Software Developer Intern

Jan 2025 – Jun 2025

Humming Byte Technologies, Nashik

On-site

- Engineered scalable backend modules using Java, Spring Boot, Spring MVC, and Hibernate, applying MVC architecture and clean separation of concerns.
- Implemented authentication and role-based authorization with Spring Security, validating access control across multiple user roles through structured manual testing.
- Modeled relational database schemas and built CRUD workflows using PostgreSQL, MySQL, and JDBC, tuning SQL queries to improve application responsiveness.

PROJECTS

AI-Powered Job Portal | Java, Spring Boot, Spring AI, React.js, PostgreSQL, Spring Security, JWT

Mar 2026 – May 2026

- Designed a role-based job portal with dedicated Job Seeker, Recruiter, and Admin portals using Spring Boot, React.js, and PostgreSQL, structured around a layered service/repository backend.
- Secured the platform with JWT-based authentication and role-based authorization across REST APIs handling job postings, applications, and user management.
- Integrated **Spring AI** with Retrieval-Augmented Generation (RAG) to auto-score resume-to-job compatibility, reducing manual screening effort for recruiters.
- Built an AI-assisted recruiter dashboard for candidate ranking, giving recruiters a faster, data-driven way to shortlist applicants.

Multi-Vendor E-Commerce Platform | Java, Spring Boot, React.js, MySQL, Spring Security

Sep 2025 – Feb 2026

- Architected a multi-vendor e-commerce platform with Customer, Seller, and Admin portals using Spring Boot and React.js, supporting independent vendor product catalogs.
- Implemented cart, wishlist, and order management workflows with secure checkout via Razorpay/Stripe payment gateway integration.
- Built seller and admin dashboards for inventory and order tracking, and added a Spring AI-powered chatbot to handle common customer support queries.

EDUCATION

Late G. N. Sapkal College of Engineering, Nashik

Expected 2027

Bachelor of Engineering (B.E.) in Computer Engineering

CGPA: 9.00

CERTIFICATIONS & ACHIEVEMENTS

Achievements: 1st Rank, F.E. (Common) Examination (2023–24) | **Winner**, Web Development Competition, SKH TechnoFest 2026 | Participant, Smart India Hackathon (SIH) & SunHacks 2026 International Agentic AI Hackathon.

Certifications: Data Structure & Algorithms using Java (NPTEL) | Programming in Java (Coding Seekho) | Full Stack Development (Coding Seekho).
